sage X3

More than a traditional ERP

Embrace change at speed

Sage X3 helps businesses thrive and stay competitive in the face of growing complexity and competitive pressures. This complete business management solution transforms how you manage operations, processes and people, allowing you to respond faster to changing customer demands.

Sage X3 is faster, more intuitive and tailored than conventional ERP. Sage X3 is available through multiple cloud deployment options, giving you the flexibility to choose the service offering that works for your organization.

“We’ve reduced our inventory carrying costs by 30% –that represents nearly \$500,000 in cash freed up. Inventory turns are up by 20%. The time to produce a custom quote is down by 75% and we added over 100 customers in one year.”

— Rich Sade
Vice president and COO, S&S Hinge Company
Chicago, IL

Thrive as a global business

React more quickly to changing customer demands while maintaining control

With Sage X3 you can:

- Achieve faster customer response times by running an agile, connected organization across multiple companies, business units and sites
- Maintain one system of record across globally distributed operations for accurate planning and forecasting
- Maintain local compliance with multi-currency, multi-ledger, multi-legislation and multi-language functionalities
- Streamline international transactions and invoicing, adhering to local banking formats, and consolidate foreign operations for simpler financial reporting
- Automate tax declarative processes, from translations to electronic submissions, and adhere to local requirements

Gain faster business insight

Increase customer satisfaction and remove administrative burden with faster, more flexible and more efficient processes powered by data

With Sage X3 you can:

- Generate insight with data across multiple machines and sources and create consistent analytical models
- Give your team personalized information with access to live dashboards customized for specific business roles to monitor performance and alert them to abnormalities in the business
- Create customizable scoreboards for individual business roles and navigate up and down the audit trail to manage risks
- Distribute consistent reports across the organization, trigger alerts and workflows based on KPIs, and enable collaboration to make better decisions
- Stay compliant with local data regulations such as the General Data Protection Regulation (GDPR)

“We achieved a full return on investment by the end of the first year through labor savings and improved accuracy.”

— Marc Lefebvre
Vice President and CIO, Ganong Bros. Limited,
New Brunswick, Canada

A photograph of a man in a white shirt smiling, looking towards the right. He is in a professional setting, possibly a conference or office. Other people are visible in the background, but they are out of focus. The man has short dark hair and is wearing a white button-down shirt. The background shows other people in business attire, including a man with glasses and a beard in a blue shirt to the right, and another man in a white shirt to the left. The overall atmosphere is positive and professional.

“Sage X3 offers the best combination of functionality, technology, value and implementation methodology of all the systems we evaluated.”

— Terry Steinberg
Vice President and CIO, Acetor Corporation,
New York
